

MCR 3U – Culminating Performance Task

This assignment is an OPTIONAL component of the course. It can be completed INDIVIDUALLY or in PAIRS. Should you choose to work with a partner, your project must reflect twice the effort.

Please keep in mind that **your efforts on this assignment must reflect the understanding you show** in the course. (If you want to improve your mark – you must present more effort and show increased understanding.) Simply doing this assignment does not mean that your mark will increase. Your presentation (including neatness, organization & clarity of ideas) will reflect the time and effort you take with this assignment.

The purpose of this task is to demonstrate your understanding or mastery of concepts in a variety of ways:

- It can replace (a) poorly done assignment(s) or performance task(s).
- It can be used to supplement your final exam mark. (For example – the final exam is worth 30% of your final mark. Should you choose to do this assignment, the assignment could be 5% of your mark and the exam would be 25%)

You may make suggestions as to how this assignment is used to improve your course mark. However, the final determination of its use is as the discretion of Mrs. Kroeker.

YOUR TASK: Create a course study plan that summarizes the major concepts of the course. Your study plan should cover all major units in the course, should include examples, graphs, tables, equations, and explanations of concepts.

Your study plan can take many forms. These could be -

- **Top 10 Things to know for 3U Math**
- **The Functions of Functions**
- **A Study Guide of key concepts to be used for final exam and as review in future courses.**
- **Your project may focus on one particular aspect of the course provided that it is a more detailed guide of the topics. (eg. Quadratic Functions, Exponential Functions, Transformations, Trigonometry)**
- **A Multi-media Presentation (Powerpoint, Prezi, website, YouTube video, etc)**

This task is due on the last day of classes: Thursday January 20th, 2011

MCR 3U – Optional Performance Task Proposal

Please fill in the following form to indicate your intention to participate in this optional assignment:

Name: _____

(Optional) My Partner's name: _____

MCR 3U Study Guide Proposal (Provide a brief description of what you intend to do): _____

Please consider using this evaluation

- To replace assignment/performance task(s) _____
- To show increased understanding of _____ (unit)
- To supplement my final exam.

I understand that the use of this evaluation is at the discretion of my teacher.

I understand that my efforts on this assignment must be reflective of my understanding of concepts and the increase I wish to see in my course mark. I also understand that the assignment must demonstrate twice the effort should I choose to work with a partner.
